

Senior Mine Geologist

ASX listed **Apex Minerals NL** (ASX Code: AXM) achieved the status of Gold producer in early 2009, as owner operator miner at the Wiluna Underground Gold Operation, situated in the North Eastern Goldfields region of Western Australia.

Production is currently from a number of underground ore sources being mined and treated through the Company's gold treatment plant, which is capable of treating approximately 1 Mtpa of free milling and refractory ores (using the BIOX process). Apex is expecting to commence a second operation at the Wilson's deposit, located at Gidgee in Western Australia about 100km south west of Wiluna. Any ore mined from the Wilson's operations would be trucked to Wiluna and processed through the Wiluna plant to supplement the current Wiluna underground feed.

As Apex moves forward it aims to be a consistent 100,000 to 150,000 ounce gold producer.

The Role

Reporting to the Mining Manager, this position will be responsible for:

- ensuring a high quality supply of ore to the mill through rigorous grade control practices;
- the leadership of the Underground Geology team; and
- the provision of cost effective drilling programmes, appropriate ore estimation techniques and management of high quality geological data.

This role will suit candidates who have significant mining / resources experience and enjoy working as part of a small, professional team.

Applications are sought from experienced Mine Geologists who have, as a minimum, the following qualifications:

- Relevant university qualification (BSc or equivalent in Geology or Earth Sciences)
- Significant experience in underground production geology
- Strong capabilities in geological and mine planning software, preferably Surpac and Vulcan
- Well developed communication and leadership skills
- Valid WA Drivers Licence
- St John's Senior First Aid certificate (desirable)
- Awareness of the Mine Safety and Inspection Act & Regulations.

What we offer

- Excellent salary packages commensurate with experience;
- 8:6 roster
- FIFO from Perth;
- Excellent refurbished camp site and facilities.

To be considered for this role please forward your resume and a covering letter to recruit@apexminerals.com.au.
